**Gifford House at Poplar Bluff, Mo., Burned to the Ground.**

## BODIES IN THE RUINS

**Forty-Five Guests in the Building Caught Like Rats in a Trap.**

## CITY OF MONTICELLO VICTIMS

Popular Bluff, Mo., Nov. 12.—The Gifford House, a three story frame building, burned down this morning. Five are dead, two fatally injured, and a dozen more are badly injured. Eight or ten bodies are supposed to be in the ruins.

Forty-five guests were in the building, who were all caught like rats in a trap.

The dead:  
HECK CLARK,  
REBECCA OWENS,  
EUGENE DALTON,  
SHELBY DEHART.  
Fatally injured:  
WINSLOW STONE,  
ETTA HARGROVE,  
JOHN SEVERELY,  
PINK PERRY,  
E. BERNARD,  
T. A. SMITH,  
MRS. BEN. SHELBY.

A dozen others were injured in jumping.

The fire originated in the rear of the building, which is a three story frame, and spread with lightning like rapidity.

It is thought that eight or ten more bodies are still in the ruins.

## BODIES TERRIBLY BATTERED.

**Twenty Six Dead from the Wreck of City of Monticello Recovered.**

Halifax, N. S., Nov. 12.—Twenty-six bodies of the thirty-five persons who lost their lives in the City of Monticello were recovered up to this morning. They are frightfully battered. So far as known but four people on the vessel escaped with their lives.

**Coroner's Decision is Accident.**  
The bodies were arranged in a room in the public hall and Coroner Fuller, who held an inquest, gave an opinion of accidental drowning.

The first body was found at daylight, when the zinc life boat, which was supposed by the survivors of the first boat, to have been lost, was discovered on the shore. The thole pins were broken. A few yards distant were the bodies of Mr. Eldridge, a passenger; second engineer, Poole, Mr. Frapp, a traveler, and the body of a seaman. All four had life belts around them.

At short intervals along the beach eleven more bodies were found, making fifteen discovered up to noon. They all evidently had come ashore in the life boat and were killed on striking the beach, not one escaping. The watches in the pockets of the two men stopped at 12:45 and 12:25 o'clock.

## WYNDHAM IS AFTER THE IRISH LEAGUE

**Meetings Addressed by Redmond and Dillon Denouncing the Government are Prohibited.**

Dublin, Nov. 12.—The first conflict of the Irish league and government under Secretary Charles Wyndham took place today at Ballindarrig, county Wicklow when a meeting was prohibited. John Redmond and John Dillon had previously spoken in Wicklow denouncing the tyranny of the government. Redmond led the crowd to Ballindarrig where a strong police force was assembled. A row ensued in which several were injured by the police batons.

## MR. M'KINLEY WILL GET A BIG TURKEY

**Rhode Island Man Scouring State for Bird for President's Thanksgiving Day Dinner.**

Providence, R. I., Nov. 12.—For a number of years the table of the president of the United States has been annually graced Thanksgiving day by a big Rhode Island turkey. Somewhere in the southern part of this commonwealth there is today a handsome specimen of this famous breed of bird strutting about the farmyard in the pride of its thirty-five pounds which a few days before the national holiday will be decapitated, carefully dressed, and dispatched to the White

## House for President McKinley's dinner.

The late Senator Anthony of this state sent the first Rhode Island turkey to the president, and after his death the late Senator Nathan F. Nixon continued the custom. Since Senator Nixon's death Horace Rose has annually sent to the White House at Thanksgiving the handsomest bird of the species he could find within the borders of the state. The biggest one ever presented was given to President Grant. It tipped the scales at thirty-eight pounds.

## Endurance of School Children.

It has been shown by the geographic records that the young child's endurance is greater in proportion to its age than the endurance of the older child. It has been found, also, that the endurance of girls does not increase in the same proportion with the age as the endurance of boys, from which it is suggested that, after a certain age, boys and girls should not be educated together, nor should girls bear the same school burden as boys after that age.

## DECLARES THE NAVY IS SHORT OF MEN

**Admiral Crowninshield Points to the Crippled Condition of the United States Service.**

Washington, D. C., Nov. 12.—Admiral Crowninshield, chief of the navigation bureau, in his report to Secretary Long, declares that the navy has not enough officers and men available to man the ships on the various stations and when the new ships provided for are completed the force will be entirely inadequate to even handle the vessels properly.

The present force is 1,340 commissioned officers, 177 warranted officers, and 14,603 enlisted men. This is apart from the marine corps of 201 officers and 6,000 men.

Admiral Crowninshield in his report says that not only is the navy unable to properly care for the vessels it now has, but that absolutely no provision is made for the future manning of the vessels already in progress or contracted for.

In an emergency he says that the present personnel of the navy would form barely one-fourth of the total establishment necessary to fight a first class European power and no longer can be considered as an effective nucleus about which a larger establishment could be formed in case of war.

## QUARRELED WITH HIS SON-IN-LAW

**Elmira, New York, Doctor, Attempted to Blow Up His House, and Perishes in the Ruins.**

Elmira, N. Y., Nov. 12.—At two o'clock this morning a terrific explosion shook the buildings for miles around the town of McLean. Investigation showed the dead body of Dr. L. Gleason. The interior of the building was wrecked and other structures were damaged but no one was hurt in the house. Gleason's body was terribly mangled. A misunderstanding with his son-in-law caused Gleason to attempt to blow all to atoms, but he succeeded only in destroying himself.

## MARCUS DALY, THE COPPER KING, DIES

**He Expired in a New York Hotel Early This Morning, Surrounded by His Family.**

New York, Nov. 12.—Marcus Daly, the copper king, died at seven fifty this morning at the hotel Netherlands of Bright's disease. Several times recently the end seemed near, but Daly showed wonderful vitality and rallied. His wife, one son and three daughters were at his bedside when the end came.

## MEETHUEN SURPRISES BOER COMMANDERS

London, Nov. 12.—Roberts reports that Methuen surprised the Boer Commandants, Symman and Bomass yesterday, took thirty prisoners and captured many wagons. Commandants Prinsloo and Fourie are both reported killed. Prinsloo is a relative of the general who recently surrendered.

## FIRE BREAKS OUT IN 1000 TONS OF COAL

Milwaukee, Wis., Nov. 12.—A Kenosha telephone message from Pleasant Prairie announces that fire has broken out in the great coal piles of the Laffin & Rand Powder company in the yards at that point and that it seems impossible to extinguish the flames. The loss to the company will be heavy.

Mr. and Mrs. Ernest LaPere of Beloit spent Sunday with relatives in this city.

## AMERICAN INDIANS ARE NOT DYING OUT

**RED MEN NUMEROUS NOW AS IN TIMES OF COLUMBUS.**

**Remarkable Statement Contradicting the Generally Accepted Theory is Made in Annual Report of Commissioner Jones—Ration System Fateful to Those Supposed to Aid.**

Washington, Nov. 12.—The remarkable statement that the Indian population of the United States is little diminished from what it was in the time of Columbus, Coronado, Raleigh, Captain John Smith, and other early explorers is the chief feature of the annual report of Commissioner of Indian Affairs William A. Jones.

The report disputes positively the commonly accepted theory that, by constant contact with the whites, the extinction of the Indian is only a matter of time. The commissioner declares with emphasis that his research from the most reliable data obtainable proves that the red men are not decreasing in numbers.

Since 1870, the time of the first reliable Indian census, the population has been stationary, the only increase being attributable to Indians becoming citizens of the United States.

The total expenditure by the government on account of the Indian service from March 4, 1879, up to an including July 30, 1900, was \$368,358,217. The expenditures for the fiscal year ended last July amounted to \$10,175,107. Of this amount at least \$3,330,000 was devoted to the cause of Indian education.

## Ration System is Denounced.

Under the head of obstacles to self-support of the Indians the report deprecates the ration system, annuity payments, and the leasing of allotments. The ration system, says the report, is the corollary of the reservation system. The Indian population of the United States is about 267,900, of which 15,270 receive a daily ration. The ration issued and its value vary according to the tribe.

Nearly two-fifths of the number receiving rations belong to the great Sioux nation. The ration has been reduced gradually within the last few years in accordance with the policy of the Indian bureau. If the Indian's claim for full rations as a right is conceded, the commissioner predicts that the time when the will be self-supporting lies in the distant future if it comes at all.

Altogether, there are 57,570 Indians receiving subsistence in some degree, exclusive of Indian children in boarding schools. The commissioner urges that the indiscriminate use of rations should stop at once. The old and helpless he says should be provided for, but rations should be issued to the able-bodied only for labor, while those who have been educated in Indian schools should depend entirely upon their own resources.

**Trust Fund Presents a Problem.**  
There is now in the treasury to the credit of the Indian tribes \$33,315,955.09, drawing interest at the rate of 4 and 5 per cent. The annual interest amounts to \$1,646,485.96. Besides this several of the tribes have large incomes from leasing and other sources.

Two suggestions are made regarding the trust fund. They are: First, the gradual extinction of these funds, setting aside a sufficient sum to maintain the reservation schools a definite number of years, say twenty-one, and then dividing the balance per capita and paying all members of the tribe at certain ages their share. Second, division of the land belonging to the tribe per capita. The subject of Indian schools is also discussed at some length.

## Governor Roosevelt at Albany.

New York, Nov. 12.—Governor Roosevelt took the early train this morning for Albany to be at his office today for the first time in several months.

## Last Day of the Expo.

Paris, Nov. 12.—This is the last day of the exposition and tickets sell at one cent each. The demolition of the buildings has begun.

## PREPARE WELCOME FOR PAUL KRUGER

**President of the Transvaal Will Land at Marseilles on Nov. 17—Leyds Will Make an Address.**

Marseilles, Nov. 12.—Kruger is expected to land here at eight on the morning of the seventeenth. A grand stand has been erected on the quay for speaking when Dr. Leyds will reply on behalf of Kruger to an address of welcome. Kruger will spend one night at Dijon enroute to Paris.

## HUMAN SKELETONS IN AN OLD MOUND

**INTERESTING FIND OF ROAD-BUILDERS AT OSCEOLA.**

**Last Vestige of the Mound Builders—Bones of a Once Powerful Race Are Disturbed and Thrown for Filling into a Highway—Its Ruin is Complete.**

Osceola, Wis., Nov. 12.—The last vestige of the mound builders in this vicinity, which was a beautiful mound twenty-five feet in height, situated in the roadway between here and the St. Croix Falls, was demolished this week and the bones of a once powerful race were thrown along the turnpike and strewn to the four winds.

This mound was twenty-five feet high and forty feet in diameter at the base. It was cone shaped and many years ago large oak trees grew on its sides and summit. Being in the direct right of way for traffic, the mound was cut away little by little, exposing skeletons that had been buried for centuries, until its ruin is now complete.

One very peculiar feature about this mound is that it was composed of pure black soil, while the surrounding country is either clay or sandy soil.

Where this earth was secured is as mysterious as is all the work of those wonderful builders.

## TERRIBLE SHOCK FOR THE DUDES

**Prince of Wales No Longer Creases His Trousers—President McKinley Keeps His Creased**

New York, Nov. 12.—The fact that the Prince of Wales does not crease his trousers and has not done so for several years, will be an awful shock to fashionable New York.

The startling news reached here today. It did not come over the cable nor by word of mouth. It came in a more reliable form—in that of a photograph of the Prince, showing that his trousers are absolutely creaseless.

It is not accidental either. Inspection of the photograph shows that the trousers never were creased. The whole thing is deliberate. The Prince has stopped sending his trousers to be pressed.

And he didn't tell New York society anything about it. Men who have been going about New York for the past few months with their trousers bagging at the knees and have been sneered at for their pains by the swell dressers are now fully vindicated.

There will be a scurrying tomorrow by the "swell dressers" to take the crease from their "pants." This a tailor says can be done easily by soaking the garments for half an hour in the washtub and then hanging them on the line to dry.

When they are dry they will look like those that the prince wears in the picture.

While the prince has gone back to unironed trousers President McKinley hasn't.

The "first gentleman of America" has his dressed every morning by his private secretary or some one else before he puts them on.

The crease is a most emphatic one. It is made with a very heavy flatiron wielded by a man with large biceps, who must work for many minutes developing the crease.

It now develops upon New York dudedom to say which leader it will follow—the prince or the president.

## BUSINESS BOOMING IN THE CREAM CITY

**Millions of Dollars to Be Invested, as a Result of the Election of President McKinley.**

Milwaukee, Wis., Nov. 11.—What the re-election of President McKinley means to Milwaukee is shown by a compilation just made of the new investments to Milwaukee shown by a comparison of this city, decided or contemplated, which include an outlay of \$9,393,000, and when the improvements are completed will furnish employment to more than 6,824 more workmen.

The three largest contemplated improvements in the list are E. P. Allis works, \$2,000,000; the Milwaukee Electric Railway and Light Company, \$2,000,000, and the Illinois Steel Company, \$2,000,000. Improvements in other plants run from \$350,000 down to \$10,000.

Many of the intending investors say frankly that they would not have invested a dollar in improvements had the election gone the other way. Never in the history of Milwaukee have the factories been so busy as now. Many find it impossible to keep up with their orders, and an increase is expected right along. It is to meet this increase that manufacturers will increase their plants.

## BRYAN WANTS TO TRY AGAIN,

**Indications That He is Already Thinking of the Third Battle.**

Lincoln, Neb., Nov. 12.—Mr. Bryan has his mind made up. With the return of good humor has come the return of confidence. Any plan of reorganization of the democratic party that does not include Mr. Bryan is certain to enlist his tremendous energies in the opposition. He said today that he would remain in Lincoln and devote his time to magazine and special writing and lecturing. He said that he had not the least idea of retiring from politics, and that whether as a leader or a private he proposed to continue his labors in the behalf of democracy.

It has been gossip among Mr. Bryan's associates that he intended to start on the war path for his third battle soon after the election in case he failed to make the presidency. It was said that he himself had expressed the opinion that he could not take the senatorship during the coming four years because he would be a very busy man.

## FILIPINO REBELS HEAR OF ELECTION

**News Quietly Received and No Result is Expected Until Insurgents Are Informed.**

Manila, Nov. 12.—The results of the elections in the United States have been quietly received here.

So far as the Filipinos are concerned, no noticeable change in the situation has occurred, nor is likely to occur in the immediate future. They are for the "greater part non-committal. News of the outcome will slowly work its way through the country to the armed insurgents, where the assurances of the leaders that Mr. Bryan would certainly be elected must first be overcome.

Last week's scouting resulted in several minor engagements with what the official reports describe as small casualties—namely: four Americans killed and ten wounded.

## PLAN GREAT FETE FOR MR. M'KINLEY

**President's Inauguration Next March to Outshine Any Former Event of the Kind.**

Washington, Nov. 12.—Plans for the inauguration of President McKinley are already being discussed here and both local republicans and democrats are taking an active interest in the matter. There is a general desire that the ceremonies shall eclipse other events of a kindred character on this continent. It is even proposed to erect a new building for the grand ball. The pension office which has been used for this purpose for a great many years past, was crowded at the inauguration of President McKinley in 1897 and there will be even less room on March 4 next.

Tacoma, Wash., Nov. 12.—In Cook's Inlet Country, Alaska, according to Mrs. Fred Smith, who arrived yesterday from that section, there are now out of a total population of 1,000 Indians of five tribes over 400 who are slowly starving and freezing to death. She says:

"There are several tribes in that district numbering in all 1,000 persons, including young children and old women, are starving and freezing to death. In former years they have made a living by hunting. Since the advent of the white man their condition has been growing worse. Miners have set forests afire. The young fox and such other fur animals that are reared in hollow trees have been destroyed, until today in that section there is practically no hunting at all. These creatures have therefore no furs from which to make their clothing. They have no furs to trade or buy food."

## HUNTERS SO THICK WOODS ARE UNSAFE

**Al. Haviland Killed Near Rhinelander by a Bullet from the Rifle of His Own Brother**

Rhinelander, Wis., Nov. 11.—The body of Al Haviland was brought to the undertaking rooms here last night, the result of a shot from the rifle of a brother who had accompanied him on a hunting trip. Their party had killed a deer and while congratulations were in progress the rifle of Will Haviland was discharged in some manner, the bullet striking Al Haviland in the forehead, causing instant death. The accident is the first reported in this neighborhood and is particularly sad. Hundreds of hunters are in this section and it is considered unsafe to be in the woods.

## WOLCOTT DEFEATED BY WOMEN VOTERS

**RESULTS IN FOUR STATES EFFECTED BY THEIR WORK.**

**Few Remain Away from the Polls in Colorado, Wyoming, Utah and Idaho—Candidate for Congress Also Beaten in the Same Way—Mormon Church Gains.**

Denver, Col., Nov. 12.—That women in states where they are allowed to vote in the national election are not losing their interest in politics is shown by the results in Colorado, Wyoming, Utah and Idaho. In each of these states they cast more votes than four years ago, and in the recent contest are said to have brought about the defeat of Senator Wolcott of Colorado by electing a legislature that will not return him to Washington.

They likewise helped to bury J. C. Thompson, democratic candidate for congress in Wyoming, because of a statement made by him to the effect that the woman vote was the easiest vote in politics to control. This state is believed to have been carried for McKinley by the female voters.

In Utah the Mormon church candidates were aided by the woman vote, the sisters of the church being more willing to follow the leaders than were the male members. In that state the only woman candidate on the ticket ran behind her fellow nominees and was defeated, presumably by the female voters.

## Wolcott Defeated By Women.

In Colorado the woman vote increased in the last four years from 46,720 to 86,943, owing to the greater interest taken in the election and the fact that there was a United States senator to be elected. The re-election of Senator O. E. Wolcott was opposed by a majority of the women, who raised the cry of personal purity on account of his recent divorce and the much advertised notoriety given his alleged escapades at the gaming table.

Poker playing has always been treated as a joke by the senator from Colorado, but in this case it was chiefly instrumental in securing his defeat, for the women were thoroughly organized to prevent his return to Washington.

## Carry Wyoming for McKinley.

Cheyenne, Wyo., Nov. 12.—The women of Wyoming exercised their right of suffrage to a greater extent in the recent election than ever before, and it is estimated that they cast at least 7,000 of the 23,000 votes polled on Nov. 6.

Heretofore the women voters of Wyoming have paid little or no attention to the elections, except in certain districts where a woman was running against a man for office, when they turned out en masse and always defeated the male candidate.

## HENRY VILLARD IS STRICKEN BY DEATH

**Apoplexy Takes the Great Financier at His New York Residence Early This Morning.**

New York, Nov. 12.—Henry Villard died at his home in this city early this morning. The immediate cause of the death of the financier was apoplexy, the stroke coming suddenly shortly after midnight. Villard died a wealthy man, his genius for finance pulling him through his former losses. He made his reputation as the reorganization and building of the Northern Pacific road to the Pacific coast.

## REV. G. C. MORGAN TO SUCCEED D. L. MOODY

**Famous London Divine Will Take Up the Work of the Late American Evangelist.**

London, Nov. 12.—Arrangements are said to have been completed whereby the Rev. G. Campbell Morgan of London will go to the United States to become the successor of Dwight L. Moody.

W. R. Moody, the late evangelist's son, has come to England to invite Dr. Morgan to take up the great Northfield preacher's work. The invitation is accompanied by the hearty endorsement of many of Mr. Moody's American associates.

Dr. Morgan is reported to view the idea favorably. He plans to devote four months of each year to lecturing to the Northfield divinity students, four months to an itinerant of evangelization and some of his time to recreation and rest.

It is likely that Ira D. Sankey will cooperate with Dr. Morgan in the same manner in which he has worked with Dr. Moody.

Dr. Morgan is the pastor of the New Court Congregational church of North London. He came to the metropolis from Birmingham two years ago and speedily won recognition as a preacher.

Dr. Morgan's call to step into Dwight L. Moody's shoes is largely the result of an impression created during his course of lectures at Northfield, Mass., last summer.

## M'KINLEY IN BY A RECORD VOTE

Has Greatest Plurality of Any Ever  
Cast for That Office in the  
United States.

The plurality of the popular vote secured by William McKinley in his second successful contest for the presidency of the United States far exceeds any that has ever been given a candidate for the office. It tops his own plurality of 596,749 in 1896, by 243,641 votes, and exceeds that of General Grant in 1872 up to the present year, the greatest on record, by 77,389 votes.

### Mr. Lincoln's Vote.

The plurality of the popular vote secured by President Lincoln at his first election was 491,195. When he ran in 1864 this was decreased to 407,342. The first of the big pluralities as they are reckoned today, was secured by Buchanan in his race against Fremont in 1856. He received 451,491 votes more than his opponent.

Grant's plurality over Seymour in 1868 was 305,458, and four years later, running against Greeley, he more than doubled this, obtaining a clear gain of 763,001 votes. This splendid total stood as high water mark from that time up to the present week. It has always been the opinion of shrewd politicians that the figure would never be equaled by any future president. They believed that nothing but the spirit of patriotism burning at white heat could bring such an enormous plurality, and saw no war cloud or vital question of patriotism or national honor that might cause the voters to pronounce their will so emphatically. When the occasion came, however, the figures swept Grant's plurality into second place.

### Garfield's Close Run.

The smallest plurality ever given the winner of a presidential race went to Garfield when he beat Hancock in 1880. His plurality was 7,018, but with it he had a majority of 59 electoral votes. When Cleveland was successful over Blaine in 1884 his popular plurality was also very small, 23,005; he had 37 electoral votes to the good. In 1888, when he was beaten by Harrison, with a majority of 65 electoral votes, he had a popular plurality of 114,660 votes over his successful opponent. In 1892, when he turned the tables on President Harrison, he secured a popular plurality of 393,638 and a majority of 110 electoral votes.

### Death of John Sheridan.

The many friends of John Sheridan of Chicago, will be pained to learn of his death, which occurred in that city Saturday afternoon at 5 o'clock. Deceased left a wife and two children, aged five and eighteen months; also three sisters, Mrs. Stutch of Chicago; Mrs. Cruse of Los Angeles, Cal.; Mrs. Patrick Ellis of Janesville; and one brother, James Sheridan, also of this city. The funeral was held today from the Catholic church on Eighteenth street. The interment was at Calvary cemetery.

## BABY PULL-BACKS

It is strange that babies get on so well as they do; there are so many pull-backs! But Scott's emulsion of cod-liver oil is a wonderful help.

Begin with a little. Too much will upset the stomach. Increase, but keep under the limit. The limit is upsetting the stomach.

Conductor Morris Dee, of Janesville met a sudden death under the cars. While descending a box car he missed a step and was hurled to death. Mr. Dee was one of the most careful trainmen on his division and he was a favorite among all who knew him. He leaves a wife and child to mourn his early and sudden death. They reside in Janesville, and they have the sympathy of all in their sad bereavement.

## UNDER TRYING CONDITIONS

Did F. S. Winslow Vote the Republican Ticket This Fall.

It is doubtful if any man in Janesville voted under more trying circumstances than did F. S. Winslow, the well known groceryman. On election day Mr. Winslow left a sick bed where he had been confined for days with a severe attack of rheumatism. He was driven to the voting booth. Friends had to assist him from his carriage. With united strength he was just able to scratch a mark—at the head of the republican column.

## SOME POLITICAL NOTES

One explanation of the result is that the democrats thought next Tuesday was election day.

In his interview since election Senator Vilas shows his teeth. He doesn't love republican men and measures half as much as people supposed.

One enthusiastic Madisonian tries his hand at prophecy. He says Mr. La Follette's primary election idea will be enacted into law; and interest and enthusiasm will become nation wide and will make him president of the United States.

There are 70 counties in Wisconsin, and but four of them went democratic in the recent election. It must cheer Mr. Aylward in the hour of defeat to reflect that two of the four are in the district he sought to represent in congress.

Senator Cullom opened headquarters for the senatorial campaign at the Great Northern in Chicago.

Debs made a declaration foreseeing trouble ahead and predicting panic and bloodshed within four years.

"Coin" Harvey has moved from Chicago to Arkansas. He looks on the election as threatening civilization.

McKinley carried every county in North Dakota, every county but five in Wisconsin and all but seven in Iowa.

McKinley carried every county in Michigan but one, and lost that by only 89 votes, his total plurality being 99,747.

An election bet in San Francisco calls for the delivery of a carload of fine sweet potatoes to the various orphan asylums.

A general fact in the democratic tickets is that Bryan ran behind the various state tickets, owing to the secret revolt of party men who wished to unload him for all time.

### Spooner For President.

Now that President McKinley is re-elected the republican newspapers are already on the search for a man to head the republican ticket in 1904. Most of them consider it settled that Theodore Roosevelt has the first claim. But with time comes good counsel. There is hardly any use in worrying about what may happen four years from now. But, in all modesty, we should like to inquire: What is the matter with Senator Spooner—Milwaukee Germania.

## TWENTY SPORTS FROM HERE.

It Is Estimated That At Least That Number Will See Fight.

Present indications are that at least twenty local sports will visit Chicago tomorrow evening for the purpose of seeing Terry McGovern and Kid Broad fight at Tattersall's.

When Terry McGovern gets into the ring he will meet one of the toughest propositions it has ever been his fortune to tumble up against. Kid Broad has been doing some tall fighting down east, and has in almost every instance shown that he is a fighter able to hold his own against anyone in his class. He is a rusher and fights very much after the fashion of Terry. He knocked out Joe Bernstein in less time than it took Terry to dispose of him, and he has been able, so far as "dope" goes to make a more than creditable showing with Terry. Whether he can do so in the ring remains to be seen. But of one fact the fight followers may be assured, and that is that they will see a fight from start to finish. Terry has a reputation at stake, and how well he has protected his reputation in the past is well enough known to require but little mention. No one has yet been able to make more than a very ordinary showing with him. He has mowed down featherweights, middleweights and members of nondescript classes between the two, and still stands the undisputed champion of his class. When Broad and he enter the ring a new proposition will confront him, and if he does not knock out or dispose of the Kid in the six rounds allotted to them it will be the first blot on Terry's scutcheon.

## PAT O'DEA IS NOT MUCH OF A COACH

Work of Notre Dame at Madison Was  
Not First Class—Hot Game  
with Chicago Expected.

Madison, Nov. 12.—[Special.]—Pat O'Dea, although without question the greatest football kicker who ever donned the grigiron uniform, is a failure in the coaching department. This fact was clearly demonstrated in the game here Saturday, in which the 'Varsity eleven piled up a total of 54 points against Pat's team from Notre Dame university.

The Indiana boys played with a spirit that is rarely seen, and tried desperately to withstand the onslaughts of the Badgers. The longest gain made by the visitors was two and a half yards, and not once during the entire game did they succeed in holding the 'Varsity for downs. The formations of the Notre Dame team on the offense were unexpectedly easy for the home team to solve. For Wisconsin the best ground gainers were Riordan, Larson, Curtiss and Cochens. The latter was toiled for the first time at half back, and proved the greatest star of the game. He will undoubtedly play the same position next Saturday against Chicago. "Activity" Pratt kicked a goal after each of the nine touchdowns. Two were very difficult, the 'Varsity being forced to point out for position.

Coach A. A. Staggs watched the game from a seat in the grand stand, and will try to drill the results of his observations into the Chicago team this week. In reply to a question he said: "The University of Wisconsin has a great team. The game they play is among the best football I ever saw."

After the game Coach Staggs went into the telegraph office at Camp Randall, and upon being told of Chicago's defeat by the Northwestern, emitted an exclamation of deep disgust, and refused to talk further.

## Used For British Soldiers in Africa

Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Gallahe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." For sale by Smith's Pharmacy, next P. O., Kodak agents.

### Reds Threaten to Kill Women.

Wichita, Kas., Nov. 12.—The Snake Creek Indians, who live on the reservation in the Creek Indian nation, have been drinking fire water and holding medicine dances for the last two weeks, and as a result they are now on the brink of an uprising for fancied wrongs the whites have done them. They have also threatened a number of their own tribe, whom they accuse of playing traitor. Chief Porter of the Creek Indians says that he fears they will rebel any day and kill hundreds of innocent women and children, so he has addressed a letter to the United States marshal asking him to quell the riot before it becomes uncontrollable. About 300 Indians are in revolt against the United States government.

## QUEER DOINGS OF THE SMART SET.

Some Silly Freaks of the Idle Born, All For Fun's Sake.

BY MAUD ROBINSON.

The latest fads of the ultra smart set are certainly of a nature to make one raise one's eyebrows or agree with the rather ambiguous remark of the old woman: "It takes all sorts of people to make a world. I'm proper glad I ain't one of them."

When you read of dinner parties which are prolonged well into the night and are followed by bathing parties which extend almost into the morning, you are apt to wonder not only where the sense of it comes in, but where the fun of it is. You and I would prefer to get a little sleep and postpone our surf exercise until the following day, but probably we fail to grasp the humor of the thing.

It appealed to the guests of a prominent society woman at Newport last week, however, when the amusing Harry Lehr proposed it at the close of her dinner. There was immediately a wild scramble for automobiles and carriages, and a hilarious crowd rushed to the beach and woke up the startled

THE NEW YACHTSWOMAN.

attendants. The greatest joke of the occasion was a little woolly toy dog which Harry Lehr persisted in bringing, because he said it needed a bath. This was regarded as exquisitely witty. Probably it was a kindred sense of humor which made some of the male guests insist upon going swimming in their dinner suits. However, this was frowned down upon and considered "bad form."

This is mild compared with the sensation which was caused by a certain society belle who anchored her yacht off Larchmont the other day and received her guests clad in a dainty pair of white duck trousers.

"Yes, I have decided to adopt them for wear on board of my yacht," she said, blushing a trifle; "and I know several of my friends who are going to do the same. It is all very well for the fluffy girl to wear long sweeping skirts. She doesn't have to do anything but sit on a coil of rope and look pretty. But with a sailor girl like myself it is different. You can't manage a sailboat in a stiff breeze with your skirts whirling about you and tripping you at every moment, and that's all there is about it. When a girl undertakes a man's work nowadays, she wants to do it as well as a man," she concluded with a little upward motion of her chin.

So the costume is being widely discussed among feminine yacht owners.

Among the Four Hundred there is no doubt that Mrs. Stuyvesant Fish can carry off the palm for eccentric entertaining. She is never at a loss to contrive something new. What do you think of her little harvest dance at the Crossways, for instance? Her sumptuous house and grounds were made to appear like a farm. Sheaves of wheat were stacked all over the lawn, in one corner of which a rook of oxen stood chewing their cud after their hard day's labor. Huge pumpkins, filled with calcium lights made effective Jack o' lanterns, and these confronted one on all sides with their grinning faces. Hoos, rakes, plows and other farming utensils decorated the drawing room, and Indian corn, poppies and sunflowers, en masse, formed the floral decorations. Each guest was required to bring some harvest offering to lay at the feet of his host, and there followed a mirth inspiring procession of society men and women with carrots, cabbages, live chickens, ducks and even sucking pigs under their arms.

"The most terrible thing in the world is to be bored." So argued society at Ashbury Park recently. To use a very slang phrase, there was absolutely "nothing doing." In despair the guests of the big hotel appealed to the landlord and begged him to come to their rescue. After a few moments' thought he looked up with a quizzical smile and invited them to a Trilby party. When the nature of this was explained and it was found to be really a bench show for feet, a warm discussion followed. Some of the more conservative guests objected; but, then, as a pert miss explained, "the trouble was with their feet and not with their scruples." The idea was triumphantly accepted and carried into effect. It was a great success and will be still talked of when next winter's snow covers the famous board walk.

After all, society people are very much like children.

## Full Collature.

The arrangement of the hair at the neck for evening wear requires that it shall always be pushed as far forward as possible straight up from the nape of the neck to above the crown of the head, but it is then pulled down again so that the soft waves will show, says Harper's Bazar. The ears are almost hidden by this arrangement of hair. There is a part sometimes at one side of the head or just in the middle, and then the hair is pulled up on either side of the part so that it looks full and soft and of course thick. This fashion of soft, full hair is, as a rule, more becoming than a more severe style, but the trouble is that the hair requires to be kept in most perfect order. It must be well brushed and washed often and always well combed. Otherwise it looks untidy, and an untidy head is more unfashionable now than ever was known before. Glossy, well brushed locks with a slight wave through them make every woman look well, but a mass of hair all ruffled up and looking as though rats had been in it is a most untidy way of arranging the hair. It is unbecoming and not in the least smart.

## Irony in a Circumstance.

At the sessions of the prison reform congress in Cleveland J. B. Tomlinson, warden of the Kansas state penitentiary, was one of the most interested delegates. The irony of this circumstance lies in the fact that while Warden Tomlinson was in Cleveland the alleged mismanagement of the institution he controls was being thoroughly written up by Kansas and other newspapers.

## Silver Service for Schley.

Work has been begun in Baltimore on the silver service for Rear Admiral Winfield Scott Schley, to be made from the silver coin captured on the Spanish cruiser Cristobal Colon. The service will consist of eighteen dinner plates, one gravy boat, one ladle, four vegetable dishes, one game platter, one fish platter, one entree platter and one soup tureen. The total weight of the silver is 2,000 ounces, and the cost when completed will be between \$7,000 and \$9,000.

## Challenger for Seawanhaka Cup.

Sixty schools have about 5,200 "old boys" at the front, besides over 3,306 in the Volunteer service.

## Chamberlain's Pain Balm Cures Others.

## Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicine and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle, and her shoulder is almost well. —Adolph L. Gentlemen:—I must say in regard to GRAIN-O that there is nothing better or healthier. We have used it for years. My brother was a great coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to use GRAIN-O. We got a package but did not like it at first, but now would not be without it. My brother has been well ever since we started to use it. Yours truly,

## NEBRASKA A WRECK.

Steamer with a Valuable Cargo Goes Ashore.

Alpena, Mich., Nov. 12.—The steamer Nebraska, loaded with a valuable cargo of general merchandise, went ashore this morning north of Presque Isle light.

A northeast gale is raging, and the boat lies in an exposed position. The tug John Owen has been sent to her relief, and the life-savers from Middle Island will probably respond. The Nebraska is a wooden boat and runs in the Soo line between Buffalo and Gladstone. She is bound up the lakes on this trip, and her cargo is consigned to points in the northwest via the Soo railroad.

The Nebraska was built in 1887 and is 261 feet on keel and 35 feet beam. She has a gross tonnage of 1,483.

## The Fusionists Lose.

Omaha, Neb., Nov. 12.—Today's mail reports from doubtful counties only confirm previous returns showing uniform Republican gains on national, state and legislative tickets and disprove the fact that the fusionists got four congressmen out of the wreck by greatly reduced majorities. In one case only 150. Late reports from every county show also that Charles H. Deitrich, Republican candidate for governor, received a plurality of nearly 100.

## Many Poisoned in a School.

St. Petersburg, Nov. 12.—Two hundred and fifty girls, pupils of the Smolny Institute, a boarding school patronized exclusively by the nobility, were taken sick with evident symptoms of poison after dinner Friday evening. It is reported that two have died, but that the others have recovered. The poison is attributed to faulty metallic cooking utensils.

## THE INDUSTRIAL WORLD.

There is no sentiment about business. The man who manufactures goods or the man who sells them, is never influenced by a sentimental policy. He wants to know first that values will not be disturbed by experimental legislation, and second that his money will come back to him in standard value. He is neither a theorist nor a dreamer, because he is in daily and close contact with a hard, cold world of fact. He has learned by experience, that is sometimes costly, that there are some questions in economics beyond his control because he belongs to the minority class. This was true in the campaign of 1892, when the business and industrial world viewed with alarm the threatened inroads of free trade, yet was powerless to prevent the catastrophe that followed just as he predicted it would.

Between the election of Grover Cleveland in November and his inauguration in March this small army of practical business men, whose living is not secured by salary, but depended on their own intelligent effort, were busily engaged in retrenching and planning how to meet the coming disaster. The manufacturer in trying to figure how he could run his factory in competition with foreign labor and foreign production, and the merchant in reducing stock to the minimum, anticipating idle labor and hard times.

Events proved that the forecasts made by these men was true in every particular. Failure followed failure in quick succession and the panic of 1893 was a natural and anticipated sequence.

Business in the industrial and commercial world was simply paralyzed, and did not recover until bitter experience drove the masses to a better understanding and induced them to change the conditions by popular vote in 1896.

The orator or writer who claims that parties and administrations have nothing to do with good or bad times in this country, is simply a blind partizan or a fanatical theorist. They have everything to do with the foundation principles of wholesome and stable government, including questions of finance and policy.

It was frequently stated during the late campaign that many industries and many lines of business were pursuing a conservative policy until after election; that orders were held in abeyance to be executed if Mr. McKinley was reelected. Some people said "that's all sentiment and nonsense," but any man who reads today discovers that it was true to the letter. All over this country renewed activity is already noticed, and the financial world abroad is extending congratulations.

"There is no sentiment in business," it is hard common sense. If the business world had the power to settle these grave questions, that are discussed so glibly by a class of demagogues who lack the ability to run a peanut stand successfully on their own account, there would be no Bryans to create disturbances and lead away a mass of deluded followers on a phantom chase as visionary as ever emanated from a human brain.

What this country needs is a more intelligent appreciation of the industrial and business world. This includes not only the manufacturer and merchant, but the farmer as well, who is a capitalist and producer. This minority element of the voting population is the basic element of success in every department of life. When prosperity comes to them it comes to the people in every department of work. The artisan finds steady employment, and unskilled labor is in good demand. The clerk and the teacher, the professor and the professions are not idle, because the busy wheels of industry and commerce are in active operation.

When the good time comes, comes, there will be no conflict between capital and labor, because every man who toils, whether with brain or hand, will be recognized as a laborer.

## PROHIBITION

The prohibition party is congratulating itself on its increased vote over 1896, and imagines that the sentiment is growing in favor of national prohibition.

It would be a blessed good thing if the moral and christian sentiment of the people was strong enough to be temperate in all things. If that good time ever comes, people will observe the moral law because they love and respect it, but until that time comes no law will ever be strong enough to hold them.

Many prohibitionists voted for McKinley this year because the interests involved were of vital import to the welfare of the nation and they could not conscientiously shirk responsibility. The increased prohibition vote came from the disgruntled element of both the republican and democratic parties. The former were anti-imperialists, too good for their party, and the latter conservative, sound money men too honest to support Bryan.

National prohibition is too impractical to gain a strong foothold.

Eugene V. Debs has had a prophetic vision. In his distorted imagination he discovers an awful panic just ahead and streets running in blood because of strikes and labor troubles. Mr. Debs was the socialistic candidate for president. If his party had won his worst predictions would have been realized. If Debs will take a trip up Salt Creek and forget to come back, the country will forgive him.

The football course is recognized as one of the most important in our educational institutions, and there is no doubt that it develops qualities of mind and heart that are very helpful in enabling young men to battle with life; but there should be more safeguards thrown about the game, so that the course would graduate fewer cripples and a less number of cemetery victims.

Chas. T. Yerkes will soon commence the construction of his underground railroad in London. That staid old English city will be given an object lesson in American push and enterprise. Mr. Yerkes is a hustler, and his hustle will be apparent in London.

M. S. Quay, of Pennsylvania, claims that he will be the next senator elected from his state. He has made a hard fight and deserves to win.

He fell with a dull and sickening thud, but Nebraska air will restore him in time for the campaign of 1904.

## THE UNDERSLEEVE FAD.

It Promises to Run Riot Through Gowns of All Sorts.

I would be afraid to say how many barrels of tears will be shed by women this season because velvet is to be the one great fashion and the one desirable thing—velvet dresses of every style, for house, for street, for carriage and in actual tailor made styles, to say nothing at all about the capes, coats and blouses.

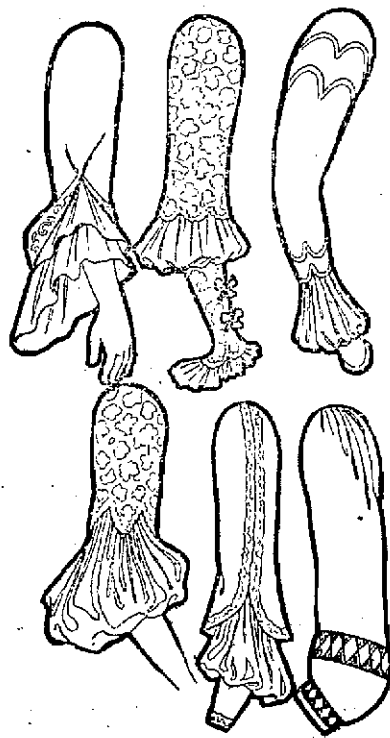

Hats of heroic size and heavy weight are of rich velvet, sometimes the smooth panne and sometimes the old pile. Some are silk faced, and others are all silk, and this kind is naturally the most expensive. The cotton faced back velvets are pretty to look at in the piece, but they are not very good economy, for they soon show the cotton admixture in the fact that there seems to be no body to them, and they crease and soon grow shabby.

Where one cannot get the real all silk velvet it is better to get the velveteen which wears better and looks far better than the cotton backed velvets. The velveteen is as handsome as Lyones velvet, but being cotton only some have an idea that it is not so fine as the silk faced fabrics. The ribbed velveteen makes up into most beautiful walking suits, particularly for very cold weather.

There are two kinds of ribs, one being like the old corduroy and the other with the ribbing as fine almost as that in pique. In fawn, tan, brown or beaver and all the grays this is one of the most useful as well as beautiful of fabrics for any out of door wear. Trimmed with fur it should be to look its best. Capes, coats, blouses and shirt waists are made of this, and it seems to have been made for each, and well, that is all there is about it. You get what you like best and suit yourself, but a real thing is always better than a cheap imitation.

One large house has made a specialty of velvet dresses and wraps of all kinds and blouses and jackets without number, and one feels after spending half a day looking at them all that life without velvet is not worth living. Nearly all the wraps and jackets are black, but there are some in dark and rich shades of purple and green as well as brown, and all are richly beaded and embroidered and fur trimmed and ornamented with elegant lace, for lace always is elegant. I say embroidered and trimmed with beading, but that sort of work this season surpasses anything of the kind I have ever seen.

Russian green is a color that now promises to be very popular in velvets and it is extremely rich, and gaudy plum will be another favorite. One evening dress was of violet velvet most elaborately trimmed, and not only that, but nearly all the other garments, not

THE NEW SLEEVES.

even excepting the street wraps, have threads of gold in with the embroidery.

train a yard long was of golden brown, and the embroidery on it had chenille and gold threads as well as the heavy embroidery twist. Several reception and other handsome costumes of heavy silk and fine woolen goods have sleeves of velvet. Those sleeves are much ornamented, and it is to be feared that nearly all the sleeves will be cut with more or less of the undersleeve design, and some of the newest, as may be seen by a glance at the illustration, are quite elaborate.

The old belt shape is one of the favorites and calls for an undersleeve of lace, and this may open like the sleeve, with many lace ruffles around it, but the most of them will have the gathered undersleeve with a band, and that may or may not have a ruffle. One may have her sleeve as she likes, always remembering that the top is not large.

The illustration will give a better idea than mere words can as to the newest shapes. Coat sleeves are scarcely ever seen now except on the coats, and even then they are as different as they can be made. But no sleeve for a jacket or a blouse is so suitable as the coat shape, with perhaps some desired modification.

Among the novelties in dress goods I saw a new poplin where the silk is thrown over cotton and linen mixed, and the whole is moire. It is called moire empire. It makes a showy fabric and will be much worn by those who like striking effects.

For dancing dresses the newest thing shown yet is the oriental gauze, and this has a silk mesh, thin and transparent, and over and through this is run a gold or silver thread so that it forms the design.

## French Autotractor Car.

Mayor Mott, United States military representative at the recent French army maneuvers, reports that the autotractor car, which is of immense service in the French army commissariat, drawing six or seven heavily laden cars over the excellent roads of that country, would be of no use whatever on the "rough American roads."

## Rainy Season Only Moderately Wet.

What they call the rainy season in Mexico comes only in the form of showers, which fall in the afternoon. These showers usually occur every day, but sometimes there will be two or three days of perfectly clear weather. There is no steady downpour, however, as in most tropical countries, and in Mexico the rainy season is regarded as the finest season of the year.

## A Business Proposition.

A successful business career cannot be achieved without sound health. The business man should guard his health as he guards his capital; for health is part of his capital and the impairment of that capital affects every business interest. A sedentary occupation and quick lunches, soon show their effects in a sluggish liver. The use of Dr. Pierce's Golden Medical Discovery will cure "liver trouble" as well as indigestion and other diseases of the organs of digestion and nutrition.

The "Discovery" strengthens the body by supplying Nature with strength making materials. It contains no whiskey, alcohol or other intoxicant. "After three years of suffering with liver trouble and malaria," writes Mr. Edward Jacobs, of Marengo, Crawford Co., Indiana, "I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I had tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets' I am stout and hearty. It is due entirely to your wonderful medicines." Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

## REAL ESTATE BOOM EARLY NEXT SPRING

DEALERS IN PROPERTY ARE  
WELL SATISFIED MEN.

Result of Election Gives Impetus to Market, and Next Spring Will See Best Trade Since '93.—The Owners of Property Now Feel Sure of an Early Revival.

Real estate men of Janesville express great satisfaction over the result of the election. They regard the outcome as offering the impetus needed to revive activity and bring back prosperity. Had the election gone the other way the result would have been disastrous to them. It would have destroyed confidence and locked up money which will now go into real estate. The election, by settling the money question, will inspire investors with confidence in the future and bring about that activity which has long been looked for, but which has been exceedingly slow in coming.

No immediate boom in real estate is generally anticipated, nor is one desired. It is believed, however, that there will be a gradual and steady revival, till by spring the market will have resumed its normal activity. The feeling that now exists is expressed in the statement of a leading real estate man as follows:

"The restoration and strengthening of public confidence has been absolute and complete.

"The people have declared twice that public honor must be upheld, and that they will not tolerate the repudiation of public liabilities. The currency of the country is based upon the gold standard and there it must forever remain. That is settled for all time.

"Before another presidential election the problems affecting the foreign possessions will have been worked out, and those questions will have been removed from the arena of public discussion. They will no longer be a disturbing element in the situation. The consequence will be that for three years at least we will know what we have to expect. Those three years, I believe, will be a time of unprecedented general prosperity. I see no reason why real estate should not share to the full in that prosperity."

## FIRST RECEPTION TONIGHT

Members of Y. M. C. A. and Auxiliary Plan Enjoyable Meeting.

The first reception to the members of the Y. M. C. A. and Auxiliary, in the history of the association, takes place at the building this evening. The ladies of the Woman's Auxiliary have prepared a tasty lot of refreshments, and a most interesting time is in store for those who have planned to attend. During the evening a program both musical and athletic will be given, and one of the features will be the exhibitions of E. Ray Lloyd with Indian clubs and battle axes. The Y. M. C. A. band will play some special selections for Mr. Lloyd's part of the program. F. E. Anderson, state secretary of the Y. M. C. A., will be present and will speak on the coming state convention. A. E. Matheson will outline the evening educational work of the association; President E. E. Loomis will preside through the evening.

## TALKS HORSE TO STUDENTS.

Alex. Galbraith Speaks Before Iowa Agricultural College.

Alexander Galbraith delivered a lecture before the students of the Iowa college of agriculture at Ames, Ia., last Saturday on horses.

Mr. Galbraith is honored frequently by different colleges and is considered an authority on imported horses. The agricultural college at Ames is a part of Iowa's state university and has the reputation of being the most complete in the country.

## WHERE MATCHED?

Paul Revere coffees, Revere, Lexington and Concord, C. F. Bianco's coffees, Faust, Auditorium, World's Fair. Some one of these brands are used on all dining cars and in the great hotels throughout the world. Grubb.

Football Game Saturday.  
The last of the series of games for the Denison trophy resulted in a score of 0 to 0. The senior and junior teams are nearly equally matched and afforded a very exciting game. The slight superiority of the seniors was shown in the fact that all of the playing in both halves was near the junior's goal. There was a very good attendance, especially of the girls, and many horns and banners. Next Saturday they will probably play off the rubber.

## One of a Kind.

## DISEASE AMONG INSECTS.

Agricultural Department Tells Farmers How to Spread It.

Washington, D. C., Nov. 12.—The experts of the agricultural department have discovered a contagious disease which can be disseminated by insects with deadly effect to the pests, but without danger of spreading the epidemic among members of the human race. By close observation it has been discovered that many annoying insects have distemper, some of a highly contagious character. By propagating these disease germs, and spreading them, so that the insects will be affected, contagion is spread and havoc follows. Farmers will be especially interested in the announcement that a disease among grasshoppers similar to leprosy, has been discovered, and that experiments conducted in Mississippi, Nebraska and Minnesota demonstrate that it is possible to distribute the germs in vials through the mail, with instructions to farmers as to the method of using the contents so as to produce the best results.  
The farmer becomes in a short time the manufacturer of his own grasshopper poison.

## RAPID LIFE KILLS CORNELL.

Son of New York Millionaire Squanders Fortune and Dies in London.

New York, Nov. 12.—Friends of Henry Meigs Cornell were notified by cable of his death in London. He had just returned there from New York, after an ineffectual attempt to reconcile his family. Cornell was a son of John Cornell of the Cornell Iron works, and formerly owned a one-third interest in that plant. But he squandered his fortune and went the pace until death overtook him. He was 34 years old. His father was a strict churchman and opposed to cards and drink. Anything that his father opposed young Cornell thought was all right. What money he did not squander on women he cheerfully gave up to the roulette wheel and the card-table. When he could not lose fast enough at that he played the horses, but was credited with making many big winnings.

## NEW DEPARTMENT OF THE Y. M. C. A.

Classes in Professional, Commercial and Mechanical Work Will Be Conducted Every Evening.

A new department of the Y. M. C. A. will be opened shortly in the shape of a course in evening classes in professional, commercial and mechanical work. A. E. Matheson as chairman of the educational committee has appointed the following men to have supervision over the different departments.

Professional: M. P. Richardson, Jesse Earle.  
Commercial: A. J. Craig, A. S. Cleland.  
Mechanical: Victor P. Richardson, Thomas Erickson.

The members of this committee met at the association building, Saturday afternoon at 5 o'clock and mapped out a course for the coming winter. The professional department will take up elementary law, the commercial department, bookkeeping and business forms, penmanship and arithmetic; the mechanical department mechanical drawing.

Proficient teachers will be secured among business men and the members of the committee will deliver short talks to students as the occasion demands. The opportunity to young men to avail themselves of an education is one that has never before

## Physical Defects in Royalty.

To those acquainted with the infirmity it is hardly noticeable, but to strangers who have occasion to converse with either of the men it is somewhat disconcerting.

## Separated and All Saved.

Though separated by the storm and washed in different directions, all the members of the Stubbs family at Galveston were rescued. Father, mother and two children were on a floating roof that broke in pieces. The father, with one child, went one way. The mother went another, and the remaining children went in still a third direction. Sunday evening all four were reunited.

## McIlwraith's Rise from Poverty.

Sir Thomas McIlwraith, who died recently in London, arose from a poor emigrant boy to be three times premier of Queensland, Australia. In this position he achieved fame by trying to annex New Guinea to his colony without the consent or knowledge of the home office. A furor arose, but was checked by the prompt disavowal of the act by Lord Derby, then the British premier.

## SIXTY-THREE LIVES LOST.

A Steamer Sinks and Many Passengers Drown.

## THREE PERSONS ARE SAVED.

City of Monticello Struck by Hurricane on Dangerous Coast—Daring Frantic Scramble for Boats Women and Children Drown—Partial List of Dead.

Halifax, Nov. 12.—The steamer City of Monticello, belonging to the Yarmouth Steamship Company, has foundered in the Bay of Fundy with an appalling loss of life. Of the crew and passengers of the ill-fated steamship sixty-three persons are reported to have perished in the wreck. Some of the bodies have already been washed ashore. Captain Harding, in command of the City of Monticello, was among those who succeeded in reaching the shore. Among those who perished, it is reported, were many women and children. When the terrific hurricane struck the steamer she was in the Bay of Fundy. Great seas were hurled over her and in a short time she became unmanageable. Soon she started her timbers and began leaking. The water gained fast and when it was decided to take to the boats a frantic scramble between the crew and passengers began. Some were washed overboard. Some lost their lives by the overturning of small boats. Others went down with the steamer. She sank off Cape Forbie. The City of Monticello ran between Yarmouth and Halifax, which is 140 miles from the home port. She sailed from Glasgow and was built at the yards of the Harlan & Hollingsworth Company, Wilmington, Del., in 1866. She was formerly the City of Norfolk. Her registered gross tonnage is 1,034.

## Struck on Dangerous Coast.

The place where the Monticello struck is at the mouth of the Bay of Fundy, where the waters of the bay join those of the Atlantic. There are many reefs and shoals at this spot and the currents are many and changeable, it being one of the most dangerous places on the coast. The gale last night kicked up a tremendous sea and at the time the vessel struck the waves were sending spray for hundreds of feet over the land. Practically all the deckhands and the remainder of the crew belonged along the shore between Yarmouth and Lockport and many of them leave widows and children. The Monticello carried a crew out of proportion to her size, as they handled all freight themselves and made frequent calls at intermediate points, both day and night. The officers and men on the Monticello were: T. M. Harding, captain; H. D. Newell, first officer, of Sable Island; N. Murphy, second officer, Yarmouth; N. S. James Flemming, third officer, Port Clyde; N. S. B. M. Hilton, purser, Yarmouth; N. S. Charles Greig, chief engineer, Halifax; Herbert Poole, second engineer; Wynne Ringer, oiler, Yarmouth; Robert Doucette, oiler, Yarmouth; James Cole, fireman, Yarmouth; Samuel Gloucester, fireman, Lockport; N. S. S. Johnson, seaman, Yarmouth; N. C. Hopkins, steward of the steamer, Yarmouth; Miss Kate Smith, stewardess; Beecher Hopkins, waiter, Barrington; N. S. Levi Nickerson, waiter, Shag Harbor; Austin Wickers, waiter, Sable Island; Walter Cunningham, waiter, Cape Sable; Isaac Vanemberg, Jr., cook; Wilson Cook, quartermaster, Yarmouth; Swan Johnson, quartermaster, Yarmouth; Stanley W. Ringer, deckhand, Yarmouth; Samuel Surette, deckhand, Yarmouth; John Witman, deckhand, Yarmouth; James Dunn, deckhand, Yarmouth; Robert Nickerson, deckhand, Yarmouth; John Burke, fireman, St. John; George Morse, fireman, Yarmouth. Those saved, so far as known were:

Wilson, cook; quartermaster of Halifax; Kate Smith, stewardess; Captain A. N. Smith, of the Battle line steamer Pharsalia, a passenger; Third Officer James Flemming.

The passengers were: Captain A. N. Smith, Rupert Olive of St. John, purser of the Dominion Atlantic steamer Prince Edward; A. S. Eldridge, merchant of Yarmouth, wife and two children; Miss Elsie McDonald of Yarmouth; J. C. Frapp of Woodstock, N. B.; O. W. Coleman of New Glasgow, N. S., married; John Richmond, married, of Sussex, N. B.; the three latter being commercial travelers.

Three Persons Are Saved.

Captain Smith, Mr. Eldridge and Miss MacDonald were saved. The list of lost includes many well-known local navigators. Captain Thomas Harding, the master of the Monticello, who is among the lost, leaves a widow and one daughter, at present residing in Yarmouth. The first officer of the Monticello, who acted as pilot, was Captain Harvey Newell, a native of Newellton, Cape Sable Island, Shelburne. He leaves a family. Second Officer Murphy leaves a widow in Yarmouth and has been fifteen years in the company's service. Steward Hopkins belonged to Barrington Passage and is survived by a widow and several children. The purser, E. T. Hilton, was a native of Yarmouth and unmarried. Chief Engineer Greig was a native of Scotland and resided in Yarmouth.

Six Drowned in Disaster.

Boston, Mass., Nov. 12.—The three-

masted schooner Myra B. Weaver was wrecked in Vineyard Sound early this morning and six lives were lost. The names of those who perished are: Captain R. S. Vannaman, of Philadelphia, aged about 35; Steward William Peterson, married, residing in New Orleans; Charles Magnusson, single, of Bergen, Norway; John Hejman, of Aland, Finland; Miss Mary Emerson, aged about 23, of Mobile; Miss Ella Deboe, aged 15, also of Mobile. Miss Emerson was a sister-in-law of the captain and Ella Deboe was her niece. The details of the disaster were learned upon the arrival here this afternoon of the steamer City of Macon, Captain Savage, which rescued four survivors.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that the people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by Smith's Pharmacy, next to P. O., Kodak Agents.

## Lynchers Sent Up for Life.

New Orleans, La., Nov. 12.—William Daniels and Ross Johnson were convicted of murder at Lake Charles, La., and sentenced to the state penitentiary for life. The case is a remarkable one, since it marks the first instance in this state where would-be lynchers have been caught, tried and convicted. On Sept. 27 of this year an attempt was made by a negro at Lake Charles to assault a white woman. The fellow was immediately captured and lodged in jail. At night a mob gathered and attempted to break into the prison. The sheriff's deputies resisted and during the melee one of their number was killed. Johnson and Daniels were convicted of doing the killing.

## Filipinos Yet at War.

Manila, Nov. 12.—The results of the election in the United States have been quietly received here. So far as the Filipinos are concerned, no noticeable change in the situation has ensued, nor is any likely to occur in the immediate future. They are for the greater part noncommittal. News of the outcome will slowly work its way through the country to the armed insurgents, where the assurance of the leaders that Mr. Bryan would certainly be elected must first be overcome. Last week's scouting resulted in several minor engagements with what the official reports describe as "small casualties"—namely four Americans killed and ten wounded.

## Stands Zealous for Sale.

Chicago, Nov. 12.—The Illinois Staats Zeitung, the oldest of the German papers now published in Chicago, is to be sold under the hammer as the result of a decree entered by Judge Haney. The order is directed to Receiver Edward G. Hallie, who is to sell the assets of the corporation and pay off the debts. This done, the company is to be dissolved. The sale, which will take place in about three weeks, will dispose of the building on Fifth avenue, the entire printing plant, together with the good will. The decree was entered on the suit brought by the Chicago National bank on a judgment for \$31,586.

## Ex-Convict Claims Riches.

New York, Nov. 12.—Jacob J. Hafner, whose life for the last fifteen years has been practically spent in state prisons, has retained Lawyer E. B. Southworth to press his claims to a share in the estate of Thomas H. Blythe, the multimillionaire, who died in San Francisco in 1883. Hafner turned over to Lawyer Southworth numerous documents that are to be used in substantiating his case.

## Cement at \$5.00 a Barrel.

Newaygo, Mich., Nov. 12.—It is alleged that T. H. Nevins of Chicago, a stockholder in the Newaygo Portland Cement company, has guaranteed to pay \$5,000 for the first barrel of cement turned out. The plant will start up on Jan. 1st, and will employ about 300 men. It cost \$325,000. This is one of the largest concerns in Michigan, there being five others constructed during the last two years.

## Rich Woman's Spouse Dies.

New York, Nov. 12.—John Lynch, husband of Mrs. Theresa Lynch, owner of the famous diamond store in Union Square, died in the city charity hospital, Blackwell's island. Mrs. Lynch has been spoken of as a widow and so considered by her most intimate friends. It was the loss of his wife's confidence and companionship that made John Lynch a recluse and a pessimist.

## DISCORD BY SMALL POWERS.

Demand for Equal Voice in Chinese Affairs.

## BELGIUM IS PRO-RUSSIAN.

Russian Restless on Account of the Strict Course of the Allies—Bourse Gazette's Criticism of English and German Battles in Southern China.

London, Nov. 12.—Another element of discord among the allies in China, according to the Daily Mail's Tientsin correspondent, is the importunate clamoring of the small powers for a voice in any important decision taken. These are Belgium, Denmark, Holland and Spain, the most exacting and troublesome being Belgium. The claims of these minor powers are backed by Russia, and to a lesser degree, by France, while the rest of the allies, especially England and Germany, are opposed.

"Its significance," he said, "cannot be overrated, and Belgium in China is intensely pro-Russian, and, indeed, to all intents and purposes it is Russian. The Pekin-Hankow concession is an instance in point. In backing Belgium, Russia, who also represents the interests of Denmark, materially aids her own plans. The rest of the great powers maintain that only those should have a predominant voice in the final settlement who have borne the brunt of the military operations. This does not mean that the interests of the lesser nations shall be in any way jeopardized or prejudiced, but it is quite another matter to place the latter on a level as regards the general Chinese question. With the great powers it is noticeable that no power save the United States is really reducing troops to any serious extent."

## Russia Deprecates Severity.

St. Petersburg, Nov. 12.—Russia is becoming increasingly restless on account of the strict course of the allies, particularly the Germans and British, toward the Chinese. "Russians," says the Bourse Gazette, "will reap the harvest of foreigners which the Germans and British are sowing." Official circles in St. Petersburg do not conceal their dissatisfaction over the recent executions of Pao-Ting-Fu officials.

## Battles in Southern China.

Victoria, B. C., Nov. 12.—News was received by the steamship Victoria concerning the rebellion in south China. The Triads have broken out in Kwang Si, and Marshal Su, commander-in-chief of the imperial forces, is asking for 30,000 men to suppress them. The British have dispatched infantry and artillery to guard the Kowloon frontier. When the torpedo boat destroyer Handy was landing men it encountered a force of rebels and threw shells among them as they advanced on Sanchuan, routing them and killing forty. A strong force of Kwanshi rebels, marching to join the Kwanshi rebels, met and defeated the imperial troops near Kuangning and captured thirty. A battle was fought at Tsan Tsou, on the Shantung-Chili border, on Oct. 17, between the imperial troops and the Boxers. General Yuan's troops numbered 8,000 and the Boxers 12,000. Two thousand men were left to guard Tsangchou, and General Mei, in charge of the imperial troops, gave battle outside. The battle lasted all day and resulted in the defeat of the Boxers with great loss. Their leader, Chen, refused to retreat, and when the fight was lost fought with 300 desperadoes in a ravine until all were killed. His head was taken and hung on the walls of the city. Six thousand rebels were killed.

## LABOR PARTY FORMED.

It Will Affiliate with Democrats, but Not Espouse Free Silver.

New York, Nov. 12.—Henry White, general secretary of the United Garment Workers, makes a statement to the effect that a movement has been started for the organization of a national labor political party in sympathy with the democratic party, and to be affiliated with the National Association of Democratic Clubs. Mr. White says that this party, while it is composed exclusively of members of labor organizations, will act independently of the labor unions, but will further all measures, state and national, supposed to be in the interests of labor. It will favor the democratic platform, he says, with the exception of the free silver plank.

## States Grow During a Decade.

Washington, D. C., Nov. 12.—New Jersey's population increased more during the decade just ended than in any similar period in the history of the state, although on two previous occasions the percentage was greater than for 1900. New Jersey's population is 1,883,669, as against 1,444,933 in 1890, an increase of 438,736, or 30.33 per cent. Colorado showed a healthy growth. Its population is now 539,700, as compared with 412,198 in 1890, an increase of 127,502, or 30.9 per cent. Idaho, according to the official returns, has a population now of 161,772 as against 84,385, an increase of 77,387, or 91.7 per cent, since 1890. It was discovered that Joplin, Mo., is entitled to a place among the cities having a population of 25,000. It now has a population of 26,023, as against 2,443 in 1890.

**R. G. DUN'S ILLNESS FATAL.**

Head of the Noted Mercantile Company  
Passed Away.

New York, Nov. 12.—R. G. Dun, head of the mercantile agency firm of R. G. Dun & Co., died in this city today of cirrhosis of the liver.

Robert Graham Dun, senior member of the great agency firm, the Mercantile agency, R. G. Dun & Co., has been a prominent figure in the business world for nearly half a century. Mr. Dun has been associated with the agency since 1851; in 1854 he became a partner, and in 1859 purchased the entire interest, since which time his name has been at the head of the firm, which has a world-wide reputation. When Mr. Dun first became connected with the business it was in its infancy. Its wonderful development and growth are due largely to his individual effort and untiring application to the ever-increasing details of management. Mr. Dun's ancestors were Scotch. His grandfather was Rev. James Dun, for twenty years a minister of the Free Church of Scotland, in Glasgow. His father, Robert Dun, was also educated for the ministry, and migrated to the United States in 1815; he settled in Chillicothe, O., where he married Lucy W. Angus, also of Scotch parentage, where Mr. Dun was born in 1826.

**Began Work for \$2 a Week.**

The Ohio boy took advantage of such means for education as were afforded, and at 16 years of age began his business career in a country store, at a salary of \$2 per week. By reason of his application to business, his energy and thorough-going, practical ways, he soon became one of the partners in the business. The advantages of New York city induced him to enter it as a larger field; he came to New York and secured employment in the mercantile agency, then conducted by Tappan & Douglass. Here his talent for details was recognized and he was constantly advanced, until, in 1854, he became a partner of Mr. Douglass, under the firm name of B. Douglass & Co. In 1859 Mr. Dun purchased the interest in the business held by Mr. Douglass. He realized that there must be one controlling head to make the enterprise successful. Mr. Dun has continued as sole proprietor of the agency since that time.

**Result of R. G. Dun's Ability.**

Under Mr. Dun's management the scope of the agency has steadily enlarged. Every year has seen an increase in the number of branch offices and the volume of business done, until in the present year there is a total of 150 offices located in as many different cities throughout the world. The reference book published by the firm contains the names of more than 1,300,000 traders in America. The work of revision each year involves the expenditure of about \$2,000,000.

**BRITISH TAKE PHILIPPOLIS.**

Boer Forces Driven Back After Four Hours Fighting.

Pretoria, Nov. 12.—The British have occupied Philippolis, after four hours' fighting. Gen. French will take command of the Johannesburg district. The condition of Miss Roberts, daughter of Lord Roberts, is more serious.

**Boers Slain Near Belfast.**

Cape Town, Nov. 12.—Among the Boers who were killed in the recent fighting near Belfast were Gen. Fourie and Commandant Prinsloo. Gen. Baden-Powell has contracted enteric fever, but his condition is not serious.

**Toils of Canadian Bravery.**

London, Nov. 12.—Lord Roberts, telegraphing from Johannesburg under date of Nov. 8, reports to the war office as follows: "Gen. Knox states he takes no credit for the very successful engagement of Nov. 6, which was due in the first instance to the determination of Le Gallais never to lose touch with the enemy, and, secondly, to the able way in which De Lisle handled the firing line after De Gallais and Ross were wounded. The next day the Boers tried to seize the strong position on the bank of the Komati, from which they were beaten out Nov. 6, but were prevented by Col. Evans, with the Canadian mounted troops, galloping two miles and seizing it in the nick of time. Smith-Dorrien says no praise can be too high for the devoted gallantry these troops showed in keeping off the enemy from the infantry convoys. In the afternoon an event unprecedented in this war occurred, when some 200 mounted Boers suddenly charged the rear guard to within seventy yards, when they were stopped by the Canadian dragoons. During the fight sixteen of the Canadians fell into the hands of the enemy, who treated them kindly, and released them after removing their own dead and wounded, during which operation the Canadians were compelled to lie on their faces in order that they might not see how heavily the Boers had suffered."

**Wales Now Wears Glasses.**

London, Nov. 12.—A startling change in appearance is that of the Prince of Wales wearing eyeglasses. The future king has long enjoyed good eyesight, but now, on the advice of an eminent oculist, he has had recourse to this fashionable form of spectacles. They are selected from the best obtainable lenses, are framed in tortoise shell and form an altogether elaborate addition to the royal countenance.

**Typhoon at Hongkong.**

Hongkong, Nov. 12.—A typhoon struck the town last evening and raged until morning. A British river gunboat was sunk, but her crew is reported to be safe. Great damage and loss of life occurred among the native craft, but it is impossible as yet to ascertain the full extent.

**Many Hurt in a Wreck.**

Leavenworth, Kas., Nov. 12.—An open switch caused the north-bound Missouri Pacific passenger train this morning to take a sliding in the yards here and to collide with a switch engine. Application of the airbrake checked the speed, but the following passengers were injured: S. H. Harris, traveling man, Chicago; ear cut. Arthur Maxwell (colored), truck bicyclist, Chicago; jaw broken. George H. Loban (colored), Cincinnati; face cut and bruised. Bud Lawrence (colored), cook, St. Louis; shoulder dislocated. Harry Creighton (colored), bruised. Thomas Madison (colored), bruised. Richard Lewis (colored), Lynchburg, Va.; bruised. The colored passengers are members of a minstrel show.

Weekly Excursion Sleepers leave St. Louis via Katy Flyer (M. K. & T. Ry.) every Tuesday at 6:16 p. m. for San Antonio, Los Angeles and San Francisco. First Sleeper leaves St. Louis, Nov. 6.

### IDEAL PAPER TO START.

Dr. Parkhurst Says This Proposed Journal Will Tell the Truth.

New York, Nov. 12.—A newspaper that will tell the truth; a newspaper that will print all the news; a newspaper that cannot be swayed by advertisers or business; a newspaper of limitless enterprise and without fear; a newspaper that will lead public opinion; a newspaper that the people will believe; a newspaper beyond the reach of patronage. In short, an ideal journal that no party can buy and no interest intimidate—printing all the great news of the world and telling the absolute truth, regardless of friends or foes, the business office or Wall street, without pandering or padding. Such is the newspaper that the Rev. Dr. Parkhurst says a syndicate of wealthy men propose starting in New York.

In a frank discussion of the subject in his library Dr. Parkhurst said that such a newspaper must be up-to-date in every respect, with the best machinery and newsgathering organization and as much money must be behind it as any of the great dailies of America. He said several men of wealth were seriously discussing the establishment of such a paper. He made the statement also that a plan was on foot to establish an ideal theater, devoted exclusively to the legitimate drama and eliminating all that is objectionable from plays and the stage. In other words, only the lofty and noble forms of dramatic entertainment would be presented to the public, now weary and disgusted with repulsive plays.

### English Votes 82 Cents Apiece.

At the last general election in Great Britain 3,867,000 votes were cast at an average cost of eighty-two cents per vote for legitimate expenses. There were 1,181 candidates for 670 seats in the house of commons.

### Runs a Fleet of Twelve Ships.

Duluth, Minn., Nov. 12.—The American Steel and Wire company has bought the fleet of the American Steamship company of Duluth, paying \$5,250,000. There are twelve ships—the four largest vessels on the lakes, six others of from 5,000 to 7,000 tons capacity, and two St. Lawrence canal ships of 3,000 tons each. Two years ago these vessels cost the American Steamship company about \$3,350,000.

### Hotel Man Declared Insane.

Tuscola, Ill., Nov. 12.—William F. Kissel, for many years proprietor of the Beach house, was declared of unsound mind and removed to the hospital at Kankakee. He is a well-known hotel man and has large business interests here and few knew of his trouble. Mrs. Kissel brought suit for divorce only a few weeks ago, which may have hastened his mental breakdown.

## AMOS REHBERG & CO.

SHOES AND CLOTHING

### For This Week's Buyers.

We are going to offer some extra special bargains in the way of Suits. We want to make this week the banner week of our clothing department, and in order to do so will have to hustle goods out pretty lively, for last week was a hummer. If price inducements amount to anything for you, you cannot pass us by for we are out to make you some money.

### Read These Money Savers.

Men's all wool Suits, fully guaranteed, and your money back if you are dissatisfied, usually brings \$15.00 at bargain prices, but we have got them this week down to \$12.00

Suits that have been sold at \$12, \$13.50 and \$14, and well worth it, are put in with a swell lot of \$10.00 ones, and all go at the same price. \$10.00

A fully warranted wool Suit, made throughout in the best possible manner, newest style pattern and latest cuts, a real \$10.00 bargain; this week \$8.50

Suits that have been \$8.50, for this week \$6.50

A full line of \$7 and \$7.50 quality goods put in the pile this week \$5.00 that sells for

Boys' and Youths' Suits in proportion, and a line of Overcoats for men and boys that cannot be surpassed in height of quality and lowness of price

Remember, this is a bargain offer made only to try and beat our last week's business, and cannot hold out longer, because it would mean too big a loss.

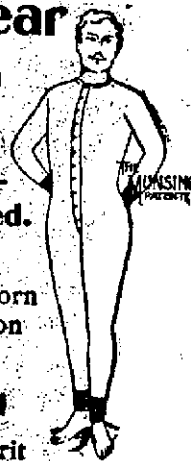

Come to the Red Front and let us convince you of the genuineness of our offer.
